Here is the updated document (with just a few changes).

Note that there are still a couple of highlighted questions for EPA to be addressed before this goes to CES.

Hi Shari,

Please see HQ's comments in the attached. Please respond to the comments and revise the evaluation if needed.

Thanks,
Calvin

Subject: Review of CES Emergency and Remedial Response Plan

Attached are our comments and questions about the applicant's Emergency and Remedial Response Plan (Attachment F).

Much of the attached document recommends additional response steps to the scenarios CES identified. Please let me know if you are comfortable with this much recommendation. In past permit application reviews, we wrote much of Attachment E to the UIC permits and the recommendations in the attached reflect these other permit packages. We think these additions offer more certainty and protectiveness.

When you forward this to CES, it may be most efficient to ask them to revise and resubmit their plan.

Please let me know if you have any questions.
